MORE

At First Star, we're committed to revolutionizing the IT landscape in Iraq and beyond. With a passion for innovation and a focus on delivering tailored solutions, we've quickly become industry leaders. Our dedicated team specializes in comprehensive IT solutions, empowering businesses to thrive in a digital world. With a belief in the transformative power of technology, we tackle complex projects with confidence.

At First Star, we recognize that success is not merely measured by the solutions we provide, but by the relationships we build and the impact we make. We pride ourselves on our unwavering commitment to customer satisfaction and our relentless pursuit of excellence in everything we do.

Join us on our journey as we continue to push the boundaries of possibility and shape the future of IT in Iraq and beyond.

COMPANY BACKGROUND

B A G H D A D

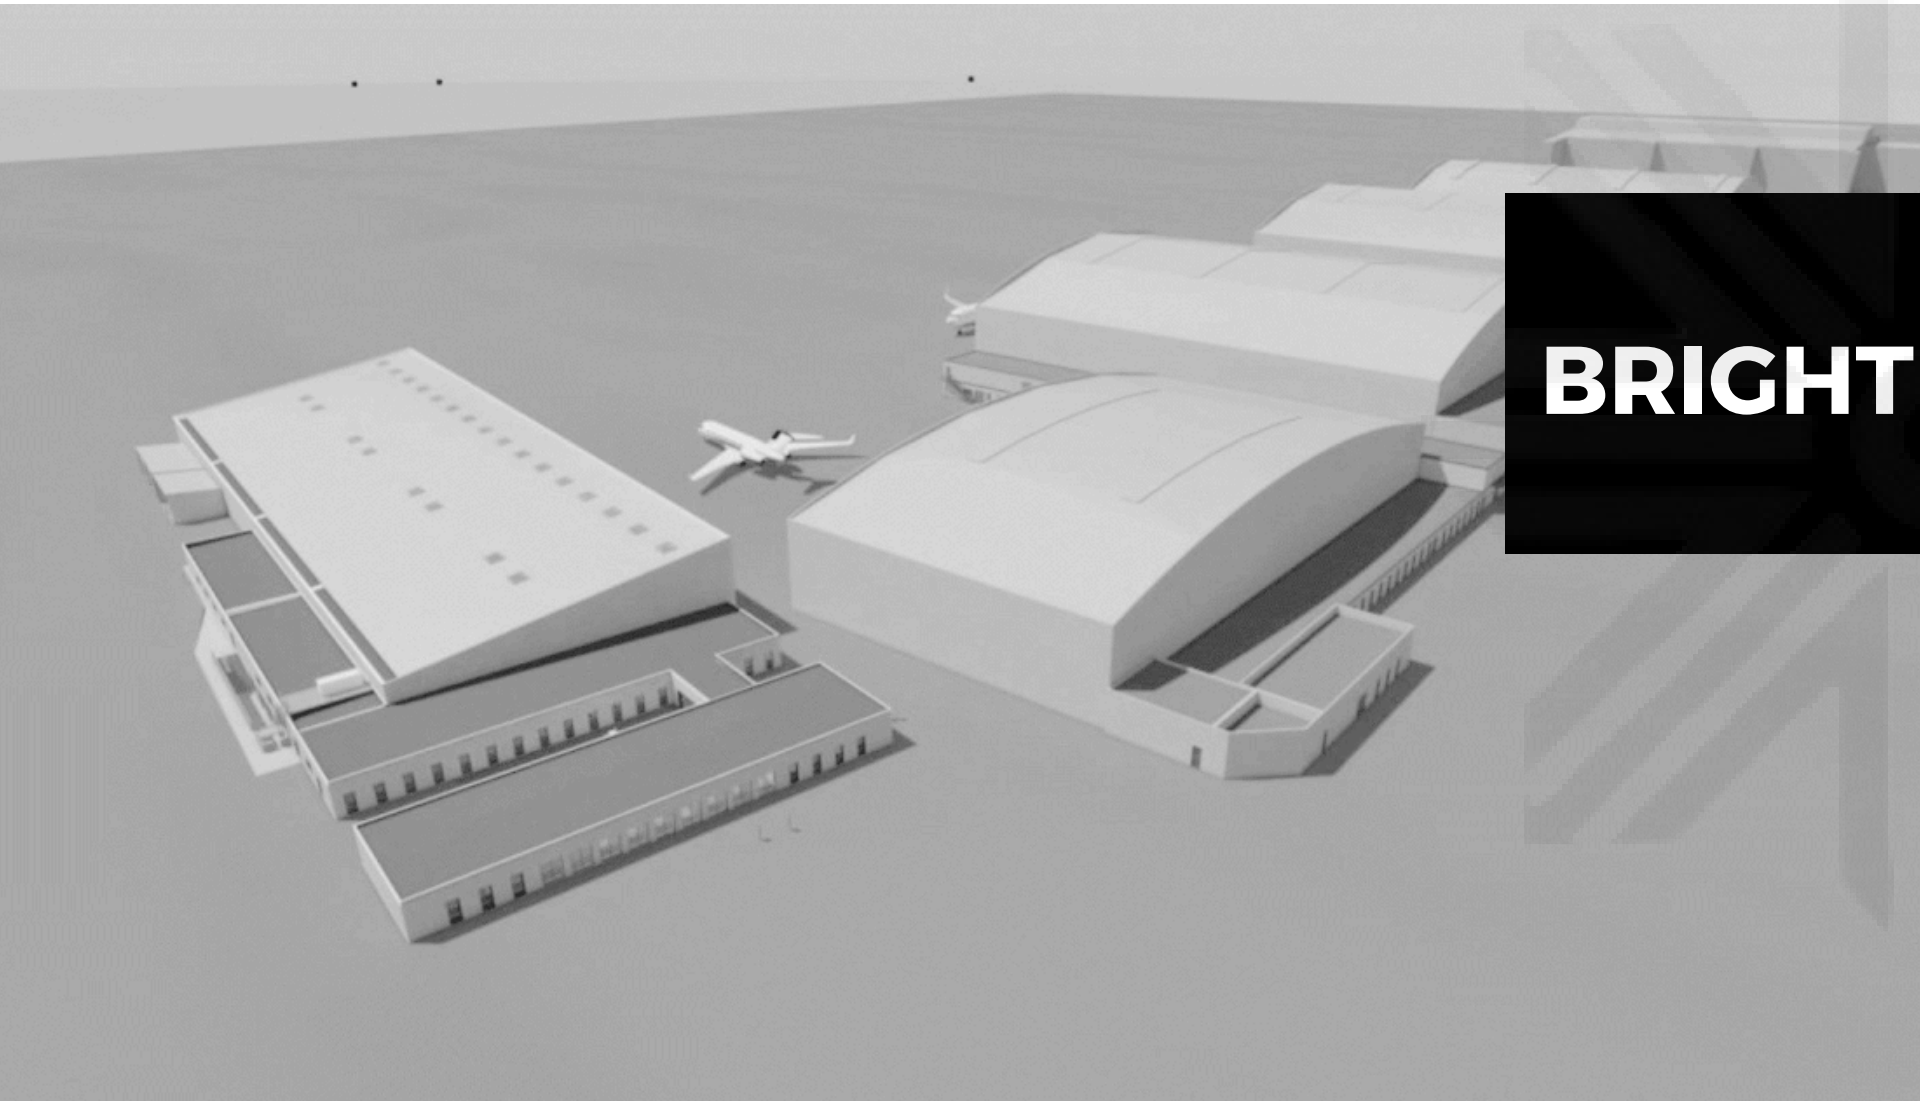

I R A Q

Founded on the belief that every challenge is an opportunity for innovation, First Star is driven by a team of young, dynamic professionals who bring a diverse range of expertise to the table. Our journey began with a simple yet powerful idea: to break free from conventional norms and create solutions that not only meet but exceed the expectations of our clients.

Our agile approach to problem-solving, coupled with our unwavering commitment to excellence, has already garnered attention and praise from industry insiders. We may be newcomers, but our ambition knows no bounds, and we're determined to leave our mark on the industry.

At First Star, we're not just building a company; we're shaping the future of IT in Iraq and beyond. With a passion for innovation, a drive for excellence, and a commitment to pushing the boundaries of what's possible, we're ready to embark on a journey of growth, discovery, and transformation. Join us as we rewrite the rules, challenge the status quo, and pave the way for a brighter, more connected future.

SERVICES OFFERED

BRIGHT FUTURE

AIRPORTS

As our partner NACO a global leader in aviation consultancy

Shaping a sustainable, resilient, and thriving future for aviation

Modern airports must serve many stakeholders: passengers, staff, government bodies and local communities. And all of this must be balanced with continued commercial success and future planning.

In our role as aviation consultants, engineers, and architects – we support, advise and equip airports with the means to meet these varying needs. All while nurturing stronger relationships to the benefit of all.

The expertise of our teams spans the full airport ecosystem. Together, we exceed clients' needs, with sustainability, resilience, and optimisation embedded from the start.

Our extensive portfolio is enhanced by a network of partners and experts. This includes NACO parent company, international multi-disciplinary engineering consultancy, Royal HaskoningDHV.

SERVICES OFFERED

At First Star, we pride ourselves on offering a comprehensive range of IT solutions tailored to meet the diverse needs of our clients. Our services include:

- **Custom Software Development:** From web applications to mobile apps, we design and develop custom software solutions that align with your business goals and drive growth.
- **IT Consulting:** Our team of experienced consultants provides strategic guidance and advisory services to help you leverage technology effectively and stay ahead of the competition.
- **Cloud Solutions:** We offer cloud migration, implementation, and management services to help businesses harness the power of the cloud for increased scalability, flexibility, and cost-efficiency.
- **Cybersecurity:** Protect your sensitive data and digital assets with our comprehensive cybersecurity solutions, including risk assessment, penetration testing, and threat detection and response.

BRIGHT FUTURE

SERVICES OFFERED

BRIGHT FUTURE

- **Network Infrastructure:** We design, implement, and manage robust network infrastructure solutions to ensure seamless connectivity and optimal performance for your business operations.
- **Data Analytics:** Unlock valuable insights from your data with our advanced analytics solutions, including data visualization, predictive modeling, and machine learning.
- **IT Support and Maintenance:** Our dedicated support team provides proactive maintenance and round-the-clock support to keep your IT systems running smoothly and minimize downtime.

At First Star, we understand that every business is unique, which is why we take a personalized approach to every project. Whether you're a startup looking to launch a new product or an established enterprise seeking to optimize your IT infrastructure, we have the expertise and resources to help you succeed.

SERVICES OFFERED

FLIGHT INSPECTION AND CALIBRATION

BRIGHT FUTURE

First Star Communication now offers specialized flight inspection and calibration services, in partnership with Samana Special Mission. Our team ensures the highest level of accuracy and safety in air navigation systems by providing comprehensive flight inspection services, including the calibration of navigational aids. Utilizing state-of-the-art technology and industry best practices, we ensure that airports and air navigation systems operate within optimal parameters, enhancing the safety and efficiency of flight operations across Iraq.

SERVICES OFFERED

SATELLITE SERVICES

BRIGHT FUTURE

- Capitalizing on **partners expertise** in the military and security forces field, First Star provides secure and on-the-move connectivity solutions when and where most needed. Our solutions allow the forces to stay connected within unserved lands and territorial waters to enhance intelligence, surveillance, and reconnaissance applications. Our partners have built and provisioned advanced systems and solutions based on fixed terminals, on-the-move terminals, flyaway terminals, and driveaway terminals. Our group has managed and accounted for esteemed partners ranging from the US DoD, NATO countries, other EU countries, and regional Arab countries within the MENA region

SERVICES OFFERED

- Our modular and multi-tenant solutions have been implemented across various countries to facilitate data flow and communication between rescue teams to allow information gathering, mitigate and improve the efficiency of rescue teams. Emergency and rescue services must ensure that communication links are established within the unplanned and improvised aspects of the working environment allowing the teams to be ready for any unforeseen situation and to be able to swiftly react as needed. Our latest Satellite-on-the-Move (SOTM) communication system is one solution to restore stability on-the-go without the need for setting-up any antennas or any other hardware.

BRIGHT FUTURE

Whether customers opt for the SOTM or the SOTP solutions, our system runs autonomously without the need for configuration, making it suitable for emergency response teams. Autonomous functions allow the saving of precious time that can be spent in actually aiding the damaged or disaster areas, whereby no dish needs to be deployed or adjusted to maintain connectivity given the auto-pointing features within the SOTP antennas and the auto-tracking features within the SOTM antennas.

PARTNERSHIPS AND AFFILIATIONS

At First Star, we believe in the power of collaboration and strategic partnerships to deliver exceptional value to our clients. We are proud to partner with leading organizations in the telecommunications and satellite industries, including:

- **EUTELSAT:** As a trusted partner of EUTELSAT, one of the world's leading satellite operators, we harness cutting-edge satellite technology to deliver reliable and high-performance connectivity solutions.
- **SES:** Our partnership with SES, a global leader in satellite communications, enables us to offer advanced satellite-based solutions for various applications, such as broadband internet and broadcasting.
